Dear Resident,

In an effort to keep your community clean and free of debris we need your help with how and where you place your Brush & Bulky Items when needed. As your solid waste service provider we have been asked by the City to remind and inform residents as to how yard trimmings (brush) and bulky items should be handled. The following procedures must be followed per our partnership with the City of Sinton:

- All yard waste (tree trimmings, branches, palms) and bulky items must be placed at curbside by 7am on Monday morning for your week of the month.
- Please do not place the debris out before or after your section is due.
- Bulky items such as TVs over 32 inches, computers, tires, paint, and any hazardous household items will not be picked up and are the responsibility of the resident to safely discard.
- Construction debris will not be collected with brush and is not part of the City Contract with us. Items include flooring, roofing materials, drywall, sheetrock, 2X4s, fencing, PVC, concrete, framing, masonry, etc.
- If you miss the time of the pick-up and place the brush and bulky out the same day we will not be able to come back once we make a pass.
- We are contracted to only pick-up 6 cubic yards worth of brush (which is the size of a Volkswagen Jetta) & bulky items per month, per resident. Any additional amount will be left behind and reported to City Hall.
- All yard waste must be on your property near the curb in front of your home and away from power lines, telephone poles, meters, vehicles, and fences. (If you have an exception call us and/or the City of Sinton)
- If you have a vehicle whether it is yours or a visitor’s near the yard trimmings at the time of pick-up we will not be able to remove it.
- Vacant lots next to or near your home are not to be dumping grounds for this yard waste and is prohibited. (Unless you own the lot) Any violation of this will be subject to fines and enforced by the City.
- Yard trimmings will not be picked up if trash bags or other debris are mixed in with trimmings.

We value your business and thank you in advance for your cooperation and understanding in this matter. Please help keep your community clean and make this process as smooth and safe as possible for us. If you have any questions please contact our Customer Service Department at the number below:

Sincerely,

Customer Service
